RE : Docket # 98N-1038, "Irradiation in the Production, Processing, and
Handling of Food."

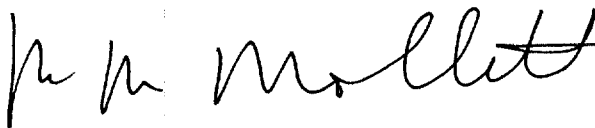

I am very disturbed to hear that the FDA wants to, and is planning to eliminate ALL
food irradiation labeling. The choice to use these "treated" products will be out of the
publics hands. The public will no longer know which edibles are so treated. WE WILL
HAVE NO CHOICE. IS THIS LEGAL? OR BENEFICIAL TO CONSUMERS? IS THIS
ANOTHER PUSH BY CORPORATIONS TO TELL CONSUMERS WHAT TO BUY &
THAT'S THAT?

I have so far been able to refuse to buy irradiated products.

THE CURRENT LABELING REQUIREMENTS SHOULD NOT EXPIRE.

ALL PRODUCTS IRRADIATED SHOULD BE LABELED **"IRRADIATED"**.

GIVE PEOPLE A CHOICE.
